

Staking and Stacking – Single and Pyramid

Under normal conditions, stake RMC Compost Filter Sock (CFS) at 10' intervals and at CFS Joints. Use hardwood stakes only with a minimum size of 1 5/8" x 1 5/8". Minimum length of stake should equal CFS diameter plus 16".

PYRAMID EQUIVALENCY:
three 18" CFS = one 32" CFS
two 18" CFS + one 12" CFS = one 24" CFS

* These are Rocky Mountain Compost SOCK recommended specifications. Consult your state or local regulations for further information
